The project

Accessible Information Material is a project

of cooperation among 7 organizations from

Italy, Estonia, Lithuania, Poland, Portugal and Spain.

This kind of project is called strategic partnership for

innovation because the partner organizations want to

work together to create something new.

The project will last 28 months, from September 2019

to December 2021.

During the project the partner organizations will learn

how to use the easy to read language.

A training course about easy to read language will

be organized for the staff of the organizations.

Subsequently they will create an easy to read book about the basics of the use of computer and internet for adult people who have some difficulties in reading and understanding.

The book will be used to organize a training course for people with some difficulties in reading and understanding coming from different European Countries.
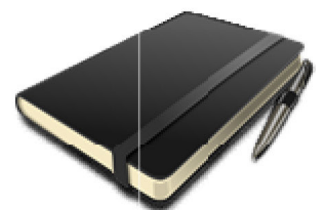

The trainers will correct the book with the suggestions by the participants

The partner organizations will also create some suggestions for the educators about how to manage an easy to understand training course about the basics of the use of computer.

The suggestions will be used to organize a training course for educators coming from different European countries.

This training course will be available also on internet.

Each partner will organize a seminar to spread the

results of the project.

Which are the partner organizations?

4 organizations are working for the social inclusion of people with disability:

1 oragnization is an high school:
